- Made of 100% recycled plastic

Suitable for { Residential and Commercial Pest Control  
Lawn and Landscaping Pest Control  
Vector Control and Public Health

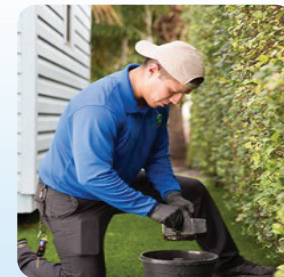

## Missquito Mosquito Services, Georgia

"The science behind the In2Care Stations and the effectiveness of the system is absolutely amazing! While we have seen that it takes a few weeks to start noticing a difference, we have been so happy with the results and have gotten great feedback from our customers".

## OneTwoTree Inc - a Turf Masters Brands company, Florida

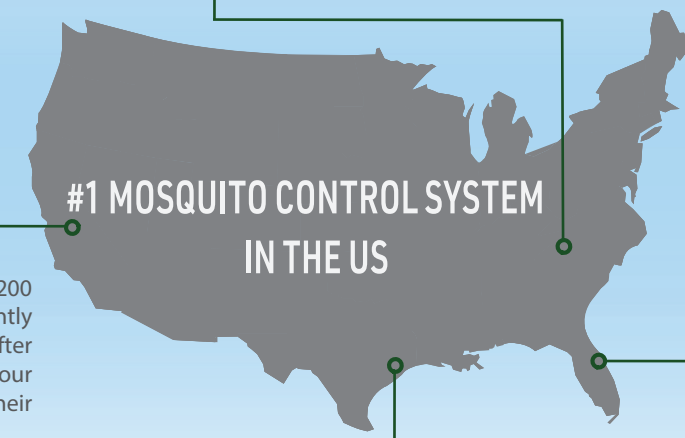

"At One Two Tree, the family's safety is top priority. That's why we're using In2Care to combat disease-carrying mosquitoes from attacking you, your family and your guests. In2Care is a fantastic, green product, that works in all yards".

## Eric Dubois, owner of Absolute Pest Control, California

"After two months and almost 200 Stations installed, we can confidently say that they are working. After having the Stations installed, our customers are able to be out in their yard, bite-free!"

## Lisa Botts, founder and owner of Peacock Pest Prevention, Texas

"In2Care is an effective add-on for any business. It is an easy-sell because customers are ecstatic to have a greener mosquito solution. And it only takes us two days out of every month to service all our customers' Stations!"
